

Compromiso de Honor

Today, I am receiving this scholarship granted by Fundación Educación, having been selected from among many other candidates who were equally qualified and who have similar needs and hopes.

I understand that I have been chosen, not as a result of chance, fate or destiny, but due to the fact that Fundación Educación trusts in me and considers me to be a person with talent, responsibility, ethics, initiative, drive and great possibilities of becoming a successful leader and citizen with a high social commitment. It considers me to be a promising person.

I accept this scholarship as a support and a stimulus for to overcome my situation, but above all, I accept it as an example of solidarity, commitment and dedication in favor of others.

I embark on my path, committing myself to reimburse what I have received, to the extent of my possibilities, so that, with my help, other young people in my country can enjoy the same benefit in the future.

This is my commitment, and today I give this oath before the other members of Fundación Educación here present, to fulfill and respect it always.
